SPICY WEDGES

THEY'RE HOT, BUT NOT TOO HOT!

NEW

Mr Chips Spicy Wedges. The new flavour experience.

CONSISTENT SUPPLY

We encourage good relationships with growers to ensure supply demands are always met. Selected potatoes are harvested and delivered straight from the fields to our processing plant.

CONTROLLED CHIP SIZE

To get consistent shape and size for our Mr Chips Spicy Wedges we carefully select and grade potatoes. They are washed, cut and cooked with a unique blend of herbs and spices, and we pick out those that don't measure up to our quality standards.

CREATED BY POPULAR DEMAND

By talking to chip eaters, we know they want large wedges, coated evenly with a spicy coating that's full of flavour, but not too hot. We created Mr Chips Spicy Wedges to meet this demand giving a flavour which sets the taste buds tingling, but one that means you can still taste the chip and enjoy your food and drink accompaniments.

A COATING WHICH WON'T TAINT THE COOKING OIL

Some wedge coatings cause the cooking medium to become tainted when you cook. We have worked with food technologists to create a colourfast, flavour-fast coating. One which leaves your cooking medium free from the spicy flavour taste.

QUICK FROZEN

It's our fast processing time and ability to quick freeze that helps keep in the flavour.

ALL NATURAL INGREDIENTS

Our wedges are flavoured using all natural ingredients and pre-cooked in 100% cholesterol-free vegetable oil. A healthier alternative giving the same great taste.

ASK FOR THEM BY NAME

Not all chips and wedges are created equal. Look for MrChips Spicy Wedges for consistent shape, size, and flavour.
